The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 13-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Sano et al (US 5,901,017).

Claim 13: Sano et al shows a recording medium reproducing unit element in Fig. 7 including: first fastening mechanism 2a for fastening a lead wire 7 to be led out in a first direction; and a second fastening mechanism 3a for fastening the lead wire 7 to be led out second direction different from the first direction.

Claim 14: Sano et al further shows the first fastening mechanism having same structure and functions as the second fastening mechanism, therefore is also operable as the second fastening mechanism.

Claim 15: Sano et al further shows that the first and second fastening mechanisms are hooks (Column 1, line 28).
